ANNUAL REPORTS

DEERING

NEW HAMPSHIRE

1968

All property owners in the Town of Deering are reminded that they will be welcome at the Annual Town Meeting at 7:00 P.M. March 11, 1969, whether or not registered voters of the town.

— By order of the Board of Selectmen

University of New Hampshire

MARIE AGNES WELLS

1893 — 1966

Marie Wells, whose picture is on the cover of this year's town report, is missed by her many friends in Deering.

Whether you agreed with her or not, she was respected by all the citizens for her interest in our town, and for the fighting spirit with which she defended her ideas as to what was good for our community.

Born Marie Agnes Hafeli at Antrim, New Hampshire, she married Harold Wells October 20, 1912. For most of their married life, they lived in Deering, where Harold still resides.

No complete listing could be made of the many civic causes and organizations with which Marie was associated, for they are too numerous to mention.

"She served her town well, and town meeting will never again be quite the same!"

Article 28. To see if the Town will vote to authorize the Selectmen to auction property taken by Tax Collector's Deeds.

Article 29. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

Article 30. To see if the Town will vote to adopt the provisions of RSA 59:73 and 59:74, relating to the Non-Partisan Ballot System, for ensuing years.

Article 31. To see if the Town will vote to authorize the Selectmen to set labor rates for Town employees other than themselves, in their absolute discretion, in order to offer competitive rates for employment by the Town.

Article 32. To see if the Town will vote to authorize the Town Clerk to handle all the details of the Town's accounts, including the payment, after due authorization, of the Town's bills.

Article 33. To see if the Town will vote its approval of a policy, temporarily adopted by the Selectmen, which provides as follows: The Town of Deering will make such roadway and other improvements on public land as will attract the building of dwellings in the Town, provided that such improvements will not cost the Town more than one year's anticipated taxes to be realized by the Town from such additional dwelling.

Article 34. To see if the Town will vote to abandon as elective offices, effective at the annual meeting of 1970, the positions of Highway Agent and Chief of Police, and to make these offices appointive at the discretion of the Selectmen.

Article 35. To see if the Town will vote to establish a Conservation Commission as set forth in RSA 36-a, and that the Selectmen appoint said Commission within 60 days from the date of the annual meeting and that a temporary chairman be appointed to call the first meeting of the Commission. (This article submitted by proper petition to the Selectmen.)

Article 36. To see if the Town will vote to instruct the Planning Board to consider the advisability of arranging with the Town of Hillsboro any simplification of the present bounds of the two towns; and to authorize the Planning Board to undertake preliminary negotiations with Hillsboro to such end if they should determine that such simplification would be of advantage to the Town.

Article 37. To see if the Town will vote its approval of the calling by the Selectmen of a special meeting of the Town during the summer, with the purpose of informing non-resident taxpayers of the operations of the Town.

Article 38. To see if the Town will vote to direct the Planning Board to submit to the Town at the next annual meeting of the Town a comprehensive plan for the center of the Town.

Article 39. To see if the Town will vote to adopt as an ordinance of the Town a sub-division control regulation as shall be published and posted by the Planning Board, or to take any other action relating thereto. (It is suggested that this article be deferred for consideration at an adjournment of the annual meeting to allow sufficient time for its full discussion. The Selectmen will move an adjournment for this purpose at the annual meeting.)

Article 40. To transact any other business which may legally be brought before this meeting.

Given under our hands and seals this Tenth Day of February, 1969.

SELECTMEN OF DEERING

Report of the Selectmen

The reappraisal of all real estate by the State Tax Commission was the biggest Town event in 1968. The appraisers not only reviewed each property in Town, but helped a great deal in properly locating many tracts of land which had been indefinite.

The general increase in valuations, based on actual sales of comparable properties, raised our full-market evaluation by 40 percent (1966 figure about \$3,500,000) to almost \$4,900,000. The principal increases are in land valuations, reflecting the heavy demand for seasonal homes, camp sites and the like. This is both good and bad for the taxpayers of the Town; good in that it shows their investments in Deering have appreciated substantially, and bad in that a higher share of the needed taxes will be paid by such land. There is a possibility that legislation following the approval of Constitutional Question No. 7 at the polls last November might provide some future relief for land-owners, but this is uncertain at this moment. Let us bear in mind that any reduction of the tax load on any one class of real estate must mean that the rest of such real property must carry a larger share of the overall tax load.

Generally, the appraisal work supported our prior idea that land itself was generally under-valued in relation to houses and other improvements. If we wish to avoid deterioration in the Town, it is our view that there should be an effort to tax improvements less in relation to land. This means that we believe in taxing man's initiative less, but does not mean that we think only land should be taxed.

The increase in equalized valuation will mean that Deering will carry a larger share, almost 19 percent, of the total school tax of the district. Since we have only about 13 percent of the pupil load in the cooperative school, we will be paying a disproportionate part. However, there will be an item in the school district warrant which will provide for a change in the method of apportionment. At this moment, it appears that the School Board will recommend a change which would base Deering's share only 50 percent on the equalized valuation figure, with the other 50 percent to be based on actual pupil attendance. Not only would the latter system of apportionment be fairer, but it would protect either town against large annual shifts in school taxation. In this connection, Deering's resident population is growing at an average rate of 8 percent per year, and

this rate of increase is higher than Hillsboro. Planned and potential industrial development in both Goffstown and Weare will probably increase the number of children faster in Deering than in Hillsboro. So it may well be to Hillsboro's own self-interest to vote for the proposed change. Many of Hillsboro's leaders are in favor of the change, which would be fairer than the present method. Each of you can help by getting your friends in Hillsboro to support the change, and you can help yourself by attending the school meeting.

The other major tax item is the expense of our roads. You will remember that the winter of 1967/68 was hard on the roads, and snow fell early in the winter of 1968/69. As a result, the road budget has been over-spent, as you will see in the comparative tables in this report. We have tried to contract out as much as possible of the plowing, in order to be able to report to you a fair financial comparison between the town doing its own work and having the same done by outside contractors. Most of the outside contractors, incidentally, are residents of the town. On the basis of present figures, which will be brought up to date at Town Meeting, it appears that it costs less to contract the work. We therefore plan to increase the amount of contracting the road-work, and to cut down the direct involvement of the Town. At this stage of our development we are still too small to be able to afford the luxury of doing so much of our own work. Our relative cost of equipment maintenance and repair is very high.

As called for at the last annual meeting, we will present for your consideration and approval a detailed 10-year plan for the development of our roads. We have now paid off our last indebtedness under the accelerated Town Road Aid (TRA) construction, so will be eligible to undertake a new 5-year TRA plan. The details of this latter plan will be fully discussed at the meeting.

The 5-year TRA plan will call for a bond of about \$55,000., to which we plan to add the "gas-tax" money for the purpose of completing the 4-odd miles of road which will be tarred as soon as possible. The principal payments on these bonds is expected to come from successive annual allocations of TRA funds from the State of New Hampshire. The interest cost, estimated at about 5 percent, should be recovered, at least in part, from increased revenues from taxes of land abutting the roads to be improved. Additional bonding may be required, up to our present debt limit of about \$85,000., and another item in the warrant asks for this

authorization.

Town business is done on a hit-or-miss basis insofar as location is concerned. During the winter months, because of the virtual impossibility of heating the Town Hall and the selectmen's office at reasonable cost, we meet at the houses of the Selectmen. Since we have no reasonable place for the Tax Collector and the Town Clerk and Treasurer to attend to town business at the Town Hall, the citizens of Deering have to do considerable traveling for business with the Town, and are often inconvenienced thereby. We recognize full well the value of being able to call on the town's officers at almost any time, at their homes, but we also recognize the inefficiencies of the present system. To make it possible for us to put all the Town records in one place, and to be available at regular times for the transaction of town business, we propose that you approve the expenditure of \$750. for fixing up the two rooms at the top of the Town Hall stairs with electric heat so the Town will have regular offices, and regular office hours, at stated times. The officers and agents of the Town will, of course, be available, as in the past, for any emergency or unusual need, at their homes.

The population spread away from the larger towns and cities is making itself felt in Deering. Our rate of population increase, since 1960, has been at better than 8 percent per year. We welcome the many new citizens who have come here, and offer our help in any way to get them well established, as concerned and contributing citizens. The rate of growth does pose problems for all of us, however, and we earnestly recommend your approval, at an adjourned session of the next annual meeting, of the sub-division regulations which will be submitted for your approval by the Planning Board. There is indeed a need for early action by you, the citizens of Deering, to control speculative development by outsiders to the Town, who may not share with us our pride in the charm and quaintness of our community. We urge your adoption of this item, which is carried in the warrant.

Many voters in Town use the beach area at the dam on Deering Reservoir or Lake for swimming. We include in the warrant an item suggesting your approval for the location of a toilet there, and recommend your approval.

We have been concerned at some of the timber-cutting being done in the Town. Some of the timbering has been done as though an avenging army was wreaking havoc. Some of the lumber operators have stripped the land so that it will not ever reforest itself naturally. We recognize that

this rape of the land is done only by a small minority of foresters, but we feel that there should be some control, and have proposed a state statute through our district representative to the General Court, which statute would provide simply that, in lumbering, either an approved forest practice must be followed, or as an alternative, that one seedling must be planted for every tree cut. We don't necessarily think that the proposed statute will be enacted, but we think it is about time for some of us ordinary citizens to get up on our hind legs and say - "Enough! Please leave us some trees for reseeding these lands you have cut!".

We are one of the last five or six towns in New Hampshire with no industry, no stores, and no industrialization whatsoever. Our common is unique. We have introduced an item in the warrant asking the Planning Board to come up with an overall plan for keeping the beauty of this spot. We know you will agree with us.

It has been a difficult year in which to control the costs of operating a small town. We suggest that, in the interests of better service to all the town, that administrative jobs, such as that of the Road Agent and the Police Chief, should be appointive rather than elective, beginning next year.

If a sales or income tax at state level would be certain to reduce, or stabilize, the property tax rate, we would probably be in favor of such taxes. But the experience of other states has been that sales and/or income taxes do not, and have not, helped to reduce property taxes in any state. So we are generally opposed to the addition of any such taxes. We do favor the recovery of taxes already paid by you through taxation of realized profits on sales of land.

Respectfully submitted,

Your Selectmen:

JOHN E. SNOW

WILLIAM KULBACKI

W. P. BITTENBENDER

Deering Planning Board Report

The Deering Planning Board has met five times over the past year. Dr. James M. Carew was appointed Chairman for this year. Mr. Irving W. Ireland was re-appointed by the Selectmen for a four year term created by his own expired term of office.

Considerable discussion and research on Town planning for the present and future of Deering has transpired which includes the following:

1. Discussion on the possibility of a new Town office building or renovating part of the present Town Hall for Town offices. The Planning Board endorses renovating part of the Town Hall for town offices.
2. The Planning Board recommended that the Selectmen request the Police and Fire Chiefs compile a report of their organization and activities during the year, outlining their forces, equipment, supplies, and future needs, as well as emergency and disaster programs.
3. The Planning Board recommends restoring of the Town Library soon.
4. It is the hope of the Board that a booklet containing all Town Ordinances be compiled and printed in the near future for use by the townspeople and all newcomers.
5. A census of the Town was taken in 1968 giving a total of 565 persons. Considerable time has been spent by your Planning Board concerning a proposed Sub-Division Regulations. Deering lies within the boundaries of the two fastest growing counties in New Hampshire - Hillsborough and Rockingham. Although land values are rising, speculators are lying in wait for an opportune moment to buy up large parcels of land. These larger parcels may then be sub-divided and sold by the speculator. If the Sub-Divisions are not controlled and orderly, a haphazard development of our once beautiful countryside may ensue. A Sub-Division Regulations is necessary for a town to protect itself from this happening. We, the voters of Deering now, in 1969, have the opportunity to protect our Town's growth and development and this can be accomplished by adopting the Sub-Division Regulations to be proposed by the Planning Board.
6. The Planning Board approves the road building plan of the Selectmen.

7. The Planning Board unanimously agreed that the offices of Road Agent and Police Chief be appointed and endorse Article No. 34 in the Warrant, effective Town Meeting, 1970.

Twenty-five street signs were designed and constructed by Mr. Ireland. Members Snow, Ireland and Carew erected several of the signs, the remainder to be placed in the spring. Wood for the signs was donated by Rodney Gilbert.

The Deering Planning Board feels it has once again accomplished considerable during the past year. The members of the Board are appointed by the Selectmen and serve without remuneration in a true civic spirit and in what is believed to be in the best interests of the Town of Deering and are always open to receive suggestions and opinions from residents and non-residents alike relating to matters of future planning for the Town.

Report of the Libarary Trustees

The Deering Library was open four hours a week during July and August, as usual.

The circulation totalled 363, an increase of 111 over 1967. There was a noticeable decrease in summer circulation.

The Bookmobile from the State Library furnished us with some very fine books which were available from the Librarian, Mrs. Alberta Segrell, after the summer closing of our library.

The Trustees announce with regret that Mrs. Segrell does not wish to be appointed Librarian for the coming year. We wish to take this opportunity to thank Mrs. Segrell for her valued service for the past few years.

The Trustees hope to find a method of stimulating interest in our library from summer visitors, and welcome any suggestions.

Health Officer's Report

During the past summer the Health Officer, Dr. James M. Carew, and Assistant Health Officer, Dr. Maurice R. Green, made an inspection of possible health hazards of various cottages around Deering Lake. Examples of existing discrepancies are as follows:

A privy located 50 feet from the lake.

A well cover inadequately constructed that would not support a child's weight.

A well located 45 feet from privy.

A dry well located 56 feet from the lake and a septic system less than 75 feet from the water's edge.

Dr. Green has done contamination studies of the lake water over the past two years. Due to heavy rainfall during the past summer, Algae counts were low. However, Dr. Green cautions and advises that all people living around the lake and using it's waters continuously strive to keep the lake free of contamination. Algae grow on the lake's surface as a result of contamination cutting off oxygen to the water and all forms of life beneath, causing stagnation of the waters and death to all living matter. If this should happen there would be no fishing or swimming in the lake.

We in Deering all enjoy our beautiful countryside, our lakes and the fine cottages and homes which surround us.

To maintain this fine resort and residential area, the utmost in care and caution must be taken by all to assure healthy living by all.

The Health Officers will continue to inspect all possible health hazards around the lake during the next year as well as all new developments being constructed in Deering to assure the elimination of all possibilities of contamination and risks contrary to the health of all.

JAMES M. CAREW, D.D.S.

HEALTH OFFICER

Forest Fire Warden's Report

People cause fires. Our records show that the number of fires increase in an area as the population increases and our state is growing tremendously. This means that we all must be aware of fire causes and do our best to prevent their occurrence.

When we are very young the lighted matches is an adventure, burnt fingers and a dropped match is another fire. A little older we like to have a woodland cookout, or go out by ourselves for a smoke but fire and forests get together for another statistic. We adults like to clean up in the spring, burn the old debris and the dead grass, results - escaped fires and much personal expense.

With new homes and summer cottages located in woodlands and with abandoned fields and forests crowding the back yard of our villages' streets, it is necessary that everyone be aware all through the fire season, which comes with the disappearance of the snow, of the need to be careful with outdoor fires and fire sources.

The following action will help:

1. To teach our children the danger of lighted matches.
2. To NEVER discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn -
 - a. You need a written permit from the town fire warden for all debris burning except when the ground is covered with snow. Cooking fires in outdoor fireplaces or in charcoal brasiers in your own back yard is permitted on notification of the warden.
 - b. The warden is forbidden by regulation to allow burning of household rubbish on GRASS by householders between 9:00 A.M. and 5:00 P.M.
 - c. Have equipment on hand to control the fire BEFORE you light the match.
4. Promptly report any fire out of control to your fire warden or fire department.

Help to keep our town out of the fire occurrence column and save your tax dollars for useful purposes.
